

Jacki,

We here at Joplimo Mattress are pleased to offer all employees of the Rogers Public Schools to be apart of our employee benefit program. We are excited to be apart of the Rogers community and look forward to a long relationship with the community of Rogers and the Rogers Public Schools.

Joplimo Mattress sells the highest quality mattresses in the bedding industry. We pride our self on offering the very best products and the best price. Our mattresses are also all hand crafted right here in the Ozarks. All our steel for the coil systems come from Leggett and Platt out of Carthage Missouri and our bedding manufacture has been producing quality beds for over 90 years in Springfield Missouri. By using this process we are able to provide the very highest quality materials and the best warranty at lower prices than most national brands!

To show our appreciation to our local educators, Joplimo Mattress would like to extend an offer of 25% discount to all employees of Rogers Public Schools. Just simply mention to your sales professional that you are an employee of Rogers Public Schools and the 25% discount is yours. It's that simple!

So come see us in our beautiful new store located at 2012 S. Promenade Blvd in Rogers, we will be happy to help get you on your way to the great nights sleep you deserve! We will also have a second location to serve NWA opening the first week in August in Fayetteville located next to the new Whole Foods store.

Sincerely,

Bryan Slavens

Manager Joplimo Mattress Rogers

I have received the merchandise in good condition.
